

# ~NUVÖ™~ SLEEP SYSTEM

The next generation of  
adjustable beds.

## ABOUT THE NUVÖ™ SLEEP SYSTEM LINE

The articulating base has taken on a new form. As sleek as a laptop and multi-functional as a PDA, the Nuvö™ Sleep System will make customers completely rethink adjustable beds—and how they use their bedrooms.

The slim profile of the Nuvö™ mattress is cushioned and supportive thanks to ComforPedic by Simmons™ Next-Generation Memory Foam. This unique foam not only responds more quickly to body movements, but also dissipates heat to keep customers at their ideal sleeping temperature.

### Key details about the Nuvö™ Sleep System:

- **Precision Positioning** – The 3-motor actuating system allows for considerably more custom positioning possibilities than traditional adjustable beds.
- **Support** – Our Omni-FLEX™ decking material supports the Nuvö™ mattress throughout the full range of motion.
- **Control** – Easy-to-use hand wand offers head up, knee up, feet up and all flat positions. It can also be programmed to an array of custom positions.
- **Innovation** – Hinged Bed™ technology allows the Nuvö™ mattress to work in perfect harmony with both the base and your body for freedom of movement.

### Nuvö™ Memory Foam Bed Pillow

- Memory foam comfort and support in a traditional pillow shape.
- Ventilated Air-Flow System provides a softer, lighter feel.
- Cover features knit fabric on one side and micro-suede on the other side for your choice of soft or firmer feels.
- Removable cover can be professionally dry-cleaned to help keep clean and fresh.
